

# Application Note

## 5800 Series- Index

Reference: AN500-08

### Introduction

This Application Note lists all the application notes that are currently available for the Aeroflex 5800 Series of Automatic Test Equipment.

## Application Notes

All of the application notes suggest solutions for various test techniques and outline procedures for program generation and debug techniques through to system housekeeping procedures. Table 1.0 lists all the application notes that are currently available along with their relevant number. When requesting a copy of any of these application notes always quote both the number and the title of the application note.

### Application Note Index Table

| Number | Title  | Version |
|--------|--|---------|
| AN500  | Application Note Index                                 | 08      |
| AN501  | VISA Instrument Control                                | 02      |
| AN502  | Device Driver Instrument Control                       | 02      |
| AN503  | Executing External Programs                            | 02      |
| AN504  | Digital I/O Using the PUC                              | 02      |
| AN505  | Relay Tests  |         |
| AN506  | OpAmp Tests  |         |
| AN507  | PUC Triggers and Timers                                | 02      |
| AN513  | 5800 AIDE Control of ADLink PXI Cards                  | 01      |
| AN517  | Using CAPG to allocate DTP Pins                        | 02      |
| AN518  | Overcoming charged Parallel capacitors when using CODA | 01      |
